YOUR WEDDING VIDEO SHOULD BE, TOO.

EXAMPLE IDEAS FOR BONUS DAY FILMING

The sky's the limit!

This is your chance to bring in a truly unique element to your wedding film. After I have received the survey responses and have gotten to know you through our interview, then we can begin to brainstorm the best way to capture your bonus day footage. This footage is meant to help tell your story as a couple in whatever way feels meaningful to you. There are so many different ways we can use your bonus day of filming and it will be different for each couple. But, to help you get a sense for the breadth and diversity of what is possible, here are a few examples:

- ✿ Consider yourselves avid hikers? We could film you hiking your favorite trail!
- ✿ Are you musicians, artists, or creatives of any kind? Let's film you creatively expressing yourselves in the way you love most.
- ✿ Diehard concert goers? Let's go to a show together and film you in your element!
- ✿ Do family/friends mean the absolute world to you? Throw a party with all your favorite people!
- ✿ Obsessed with cooking good food? Let's get into the kitchen and film your own cooking show!
- ✿ Has your life been enriched through parenthood? We can capture some really precious footage of you and your little ones enjoying each other's company.
- ✿ Maybe there's nothing you love more than spending a quiet night together, cozied up by a fire with a good book. We can build that into your film!
